CLIMATE ACADEMY - SPECIAL EVENT

Nature-Based Hazard Mitigation Through FEMA Mitigation Grants

September 22nd 12-1pm EDT

Hybrid approaches to hazard mitigation that combine gray infrastructure with nature-based solutions (NBS) have been shown to mitigate risks associated with flooding (riverine and coastal) and wildfire. Join members of AECOM and The Nature Conservancy as they provide a brief overview of NBS, funding opportunities through the Federal Emergency Management Agency's Hazard Mitigation Assistance grants, and how to maximize benefits for a given project.

1 CEU is available for APA and ASFPM.

This event is free but registration is required. For more information and to register, visit the NJ Climate Change Resource Center website at <https://go.rutgers.edu/9aoet9zx>.
