

Opportunities to Protect the Places We Love: *Our Coastal Wetlands*

Martha Maxwell-Doyle
Deputy Director

September 27, 2017

*Climate Change Policy in New Jersey:
Advancing Opportunities to make New Jersey
Safer, Greener, Healthier and More Prosperous*

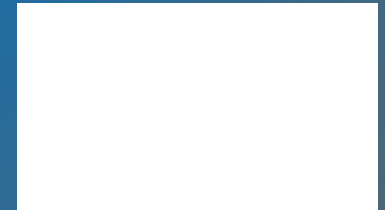

Our Coastal Wetlands

Our Legacy and Our Future

That's Continuing to Change...

NJ Coastal Wetlands at Risk:

- Rapidly loss of shoreline
 - More Storms of Higher Intensity
- SLR: Wetlands Inundation
- Loss of Wetlands = Decline in Water Quality and Supply

- Current Conditions
- Future Survival
- Better Management Decisions

Resiliency and Enhancement Techniques

Ingenuity and Creativity: Vision for the New Jersey's Coast!

Tuckerton Beach – Post Sandy

Seattle, WA

Opportunity for multi-sector collaborative approach that includes environmental planning, design and engineering and a regulatory framework for a “New” Jersey
